

**Turf. Reimagined.**

# Installation Guide

**Prep the ground**

**Make the  
surface level**

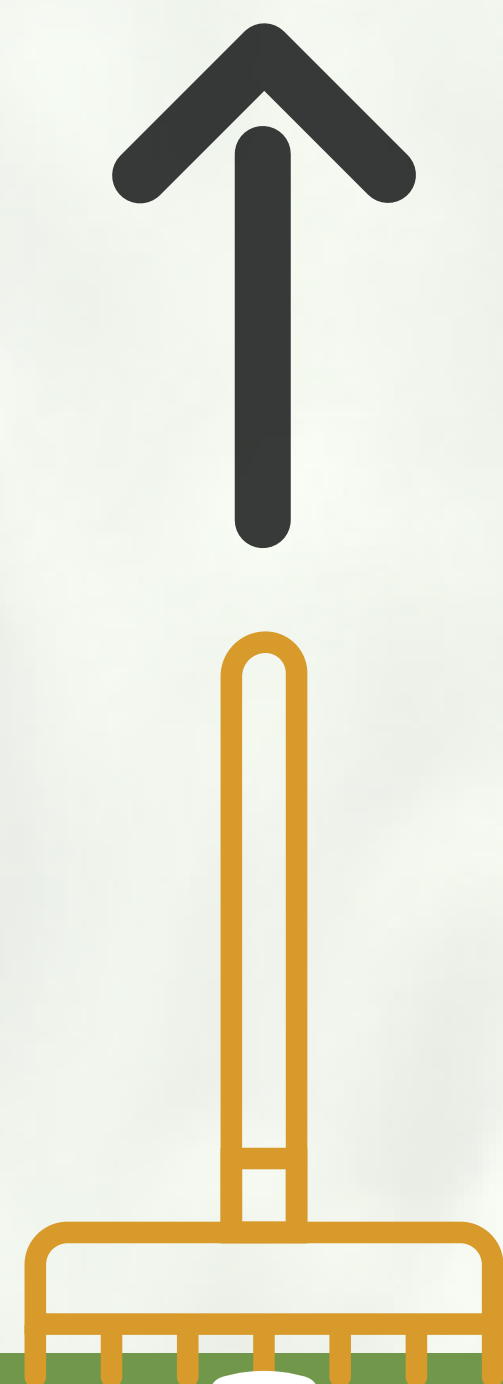

**Unroll 1 roll**

**Lay the roll up against  
your perimeter**

**Anchor starting end**

**Stretch with rake**

**Anchor opposite end**

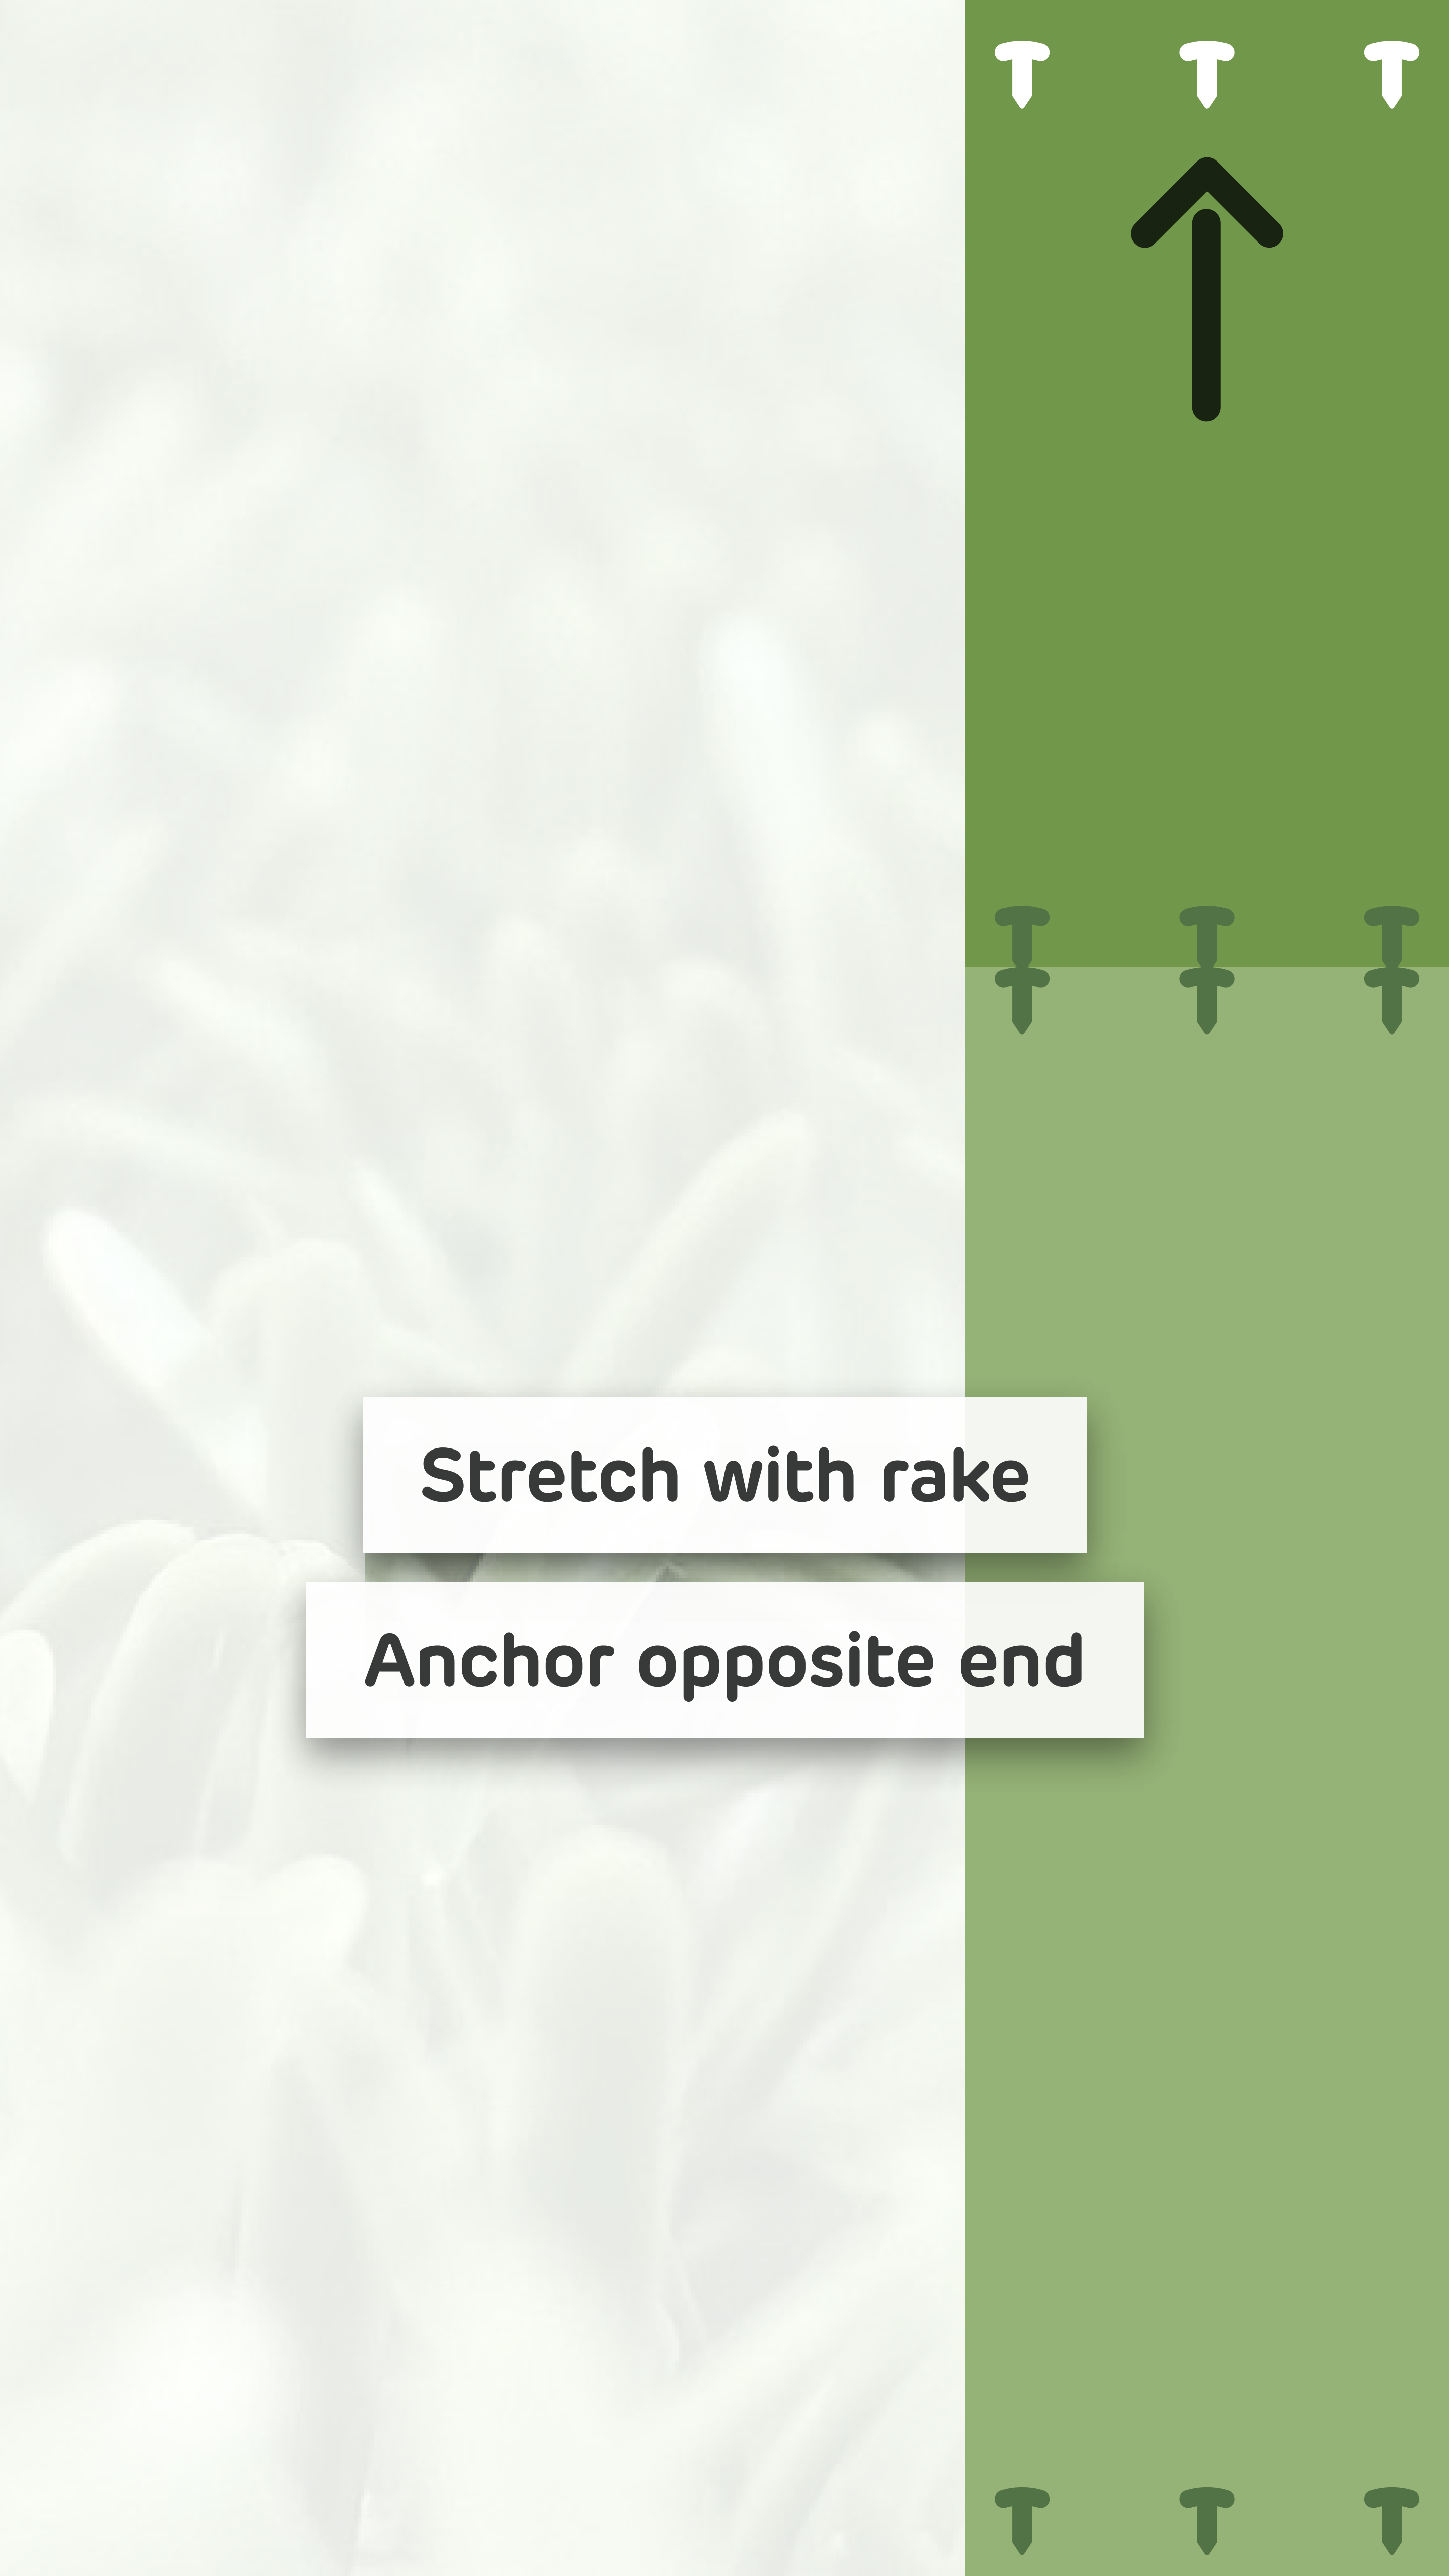

**Start a new roll at  
end of previous roll**

**Anchor along seam**

**Cut with scissors  
or shears to fit**

**Stretch with rake**

**Anchor opposite end**

**Take remainder  
of cut roll and start  
another strip**

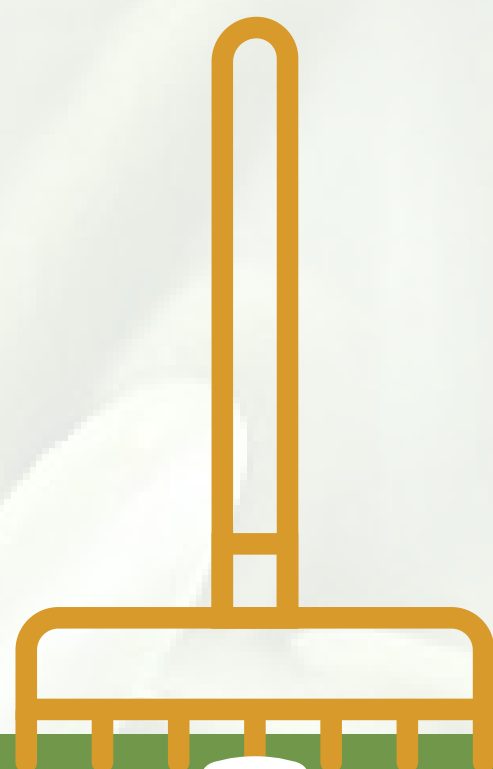

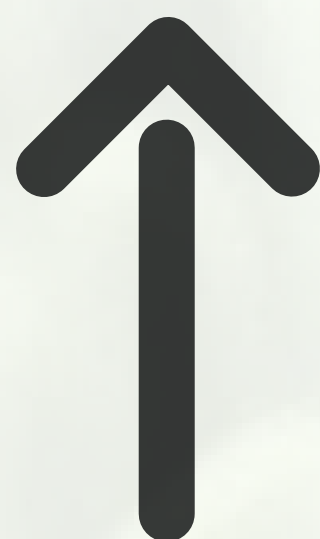

**Align so the edge of the  
new strip is against the  
existing strip**

**Anchor the starting end**

**Stretch with rake**

**Anchor opposite end**

**Unroll next roll  
at end of last roll**

**Align so the edge of the  
new strip is against the  
existing strip**

**Anchor the starting end**

Cut to fit

Stretch with rake

Anchor end

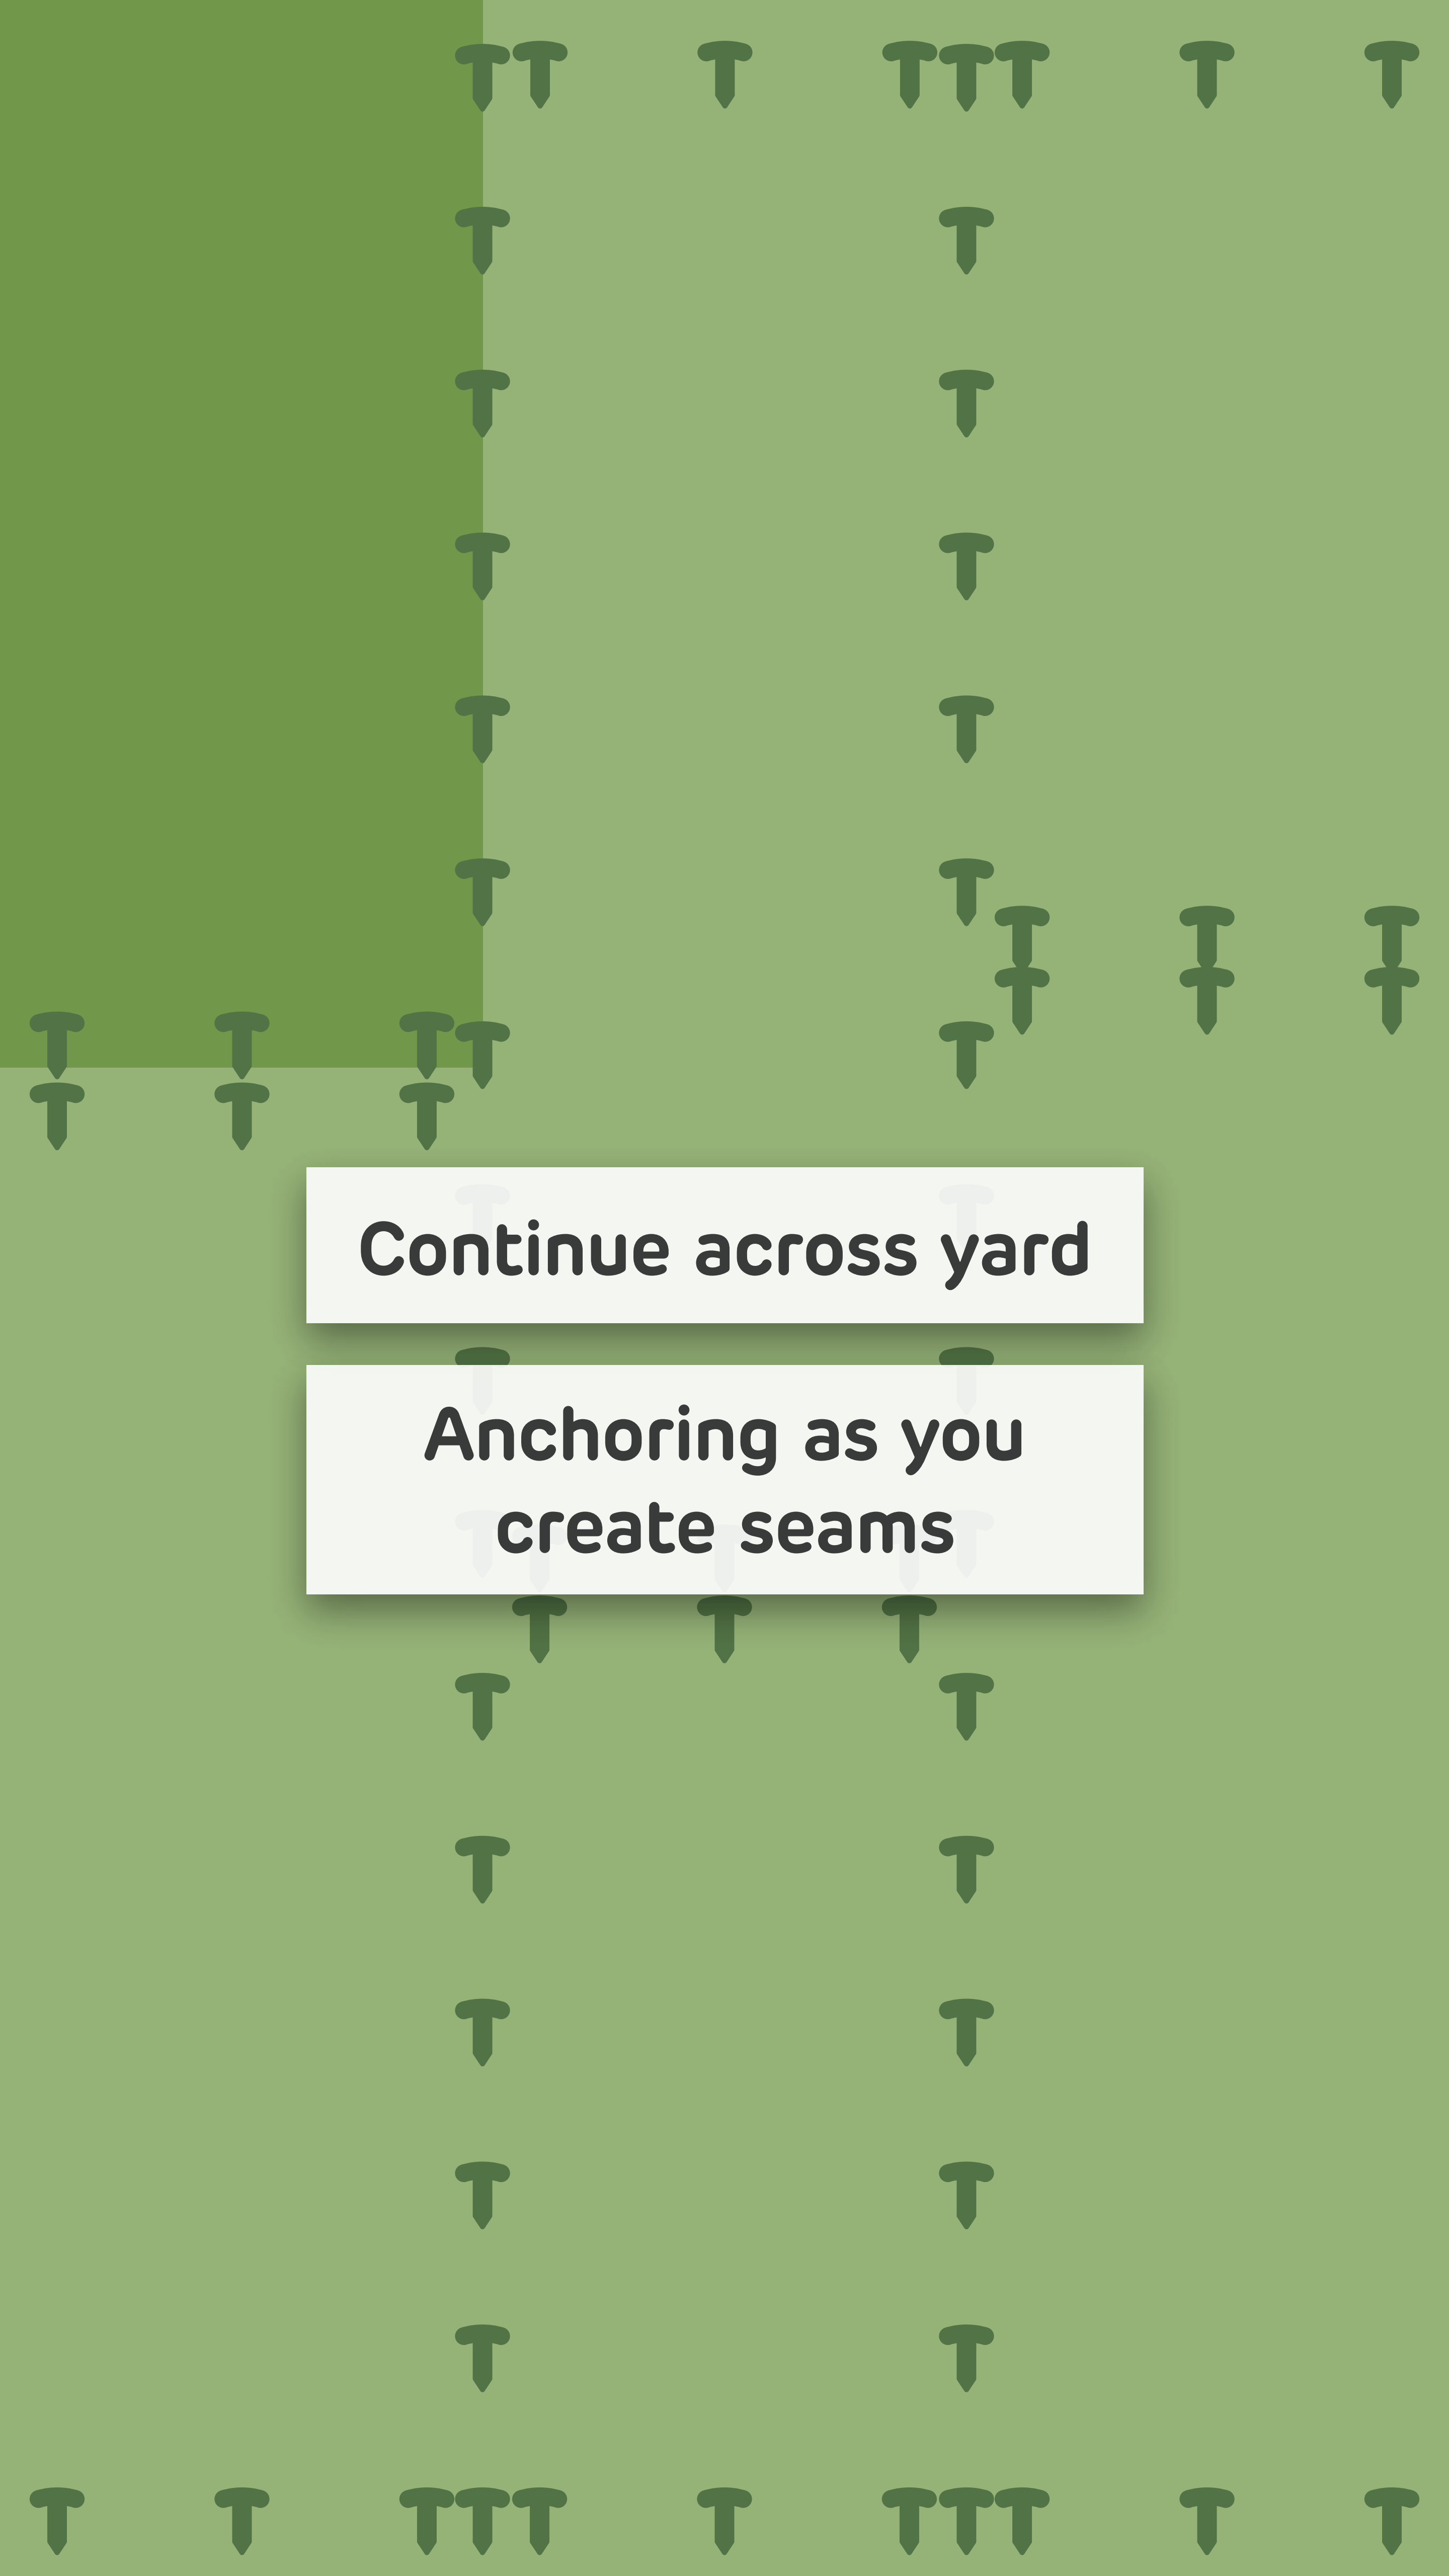

**Anchor along seams  
before placing next strip**

**Anchor about every 18"**

**Use "T" shape of anchors  
to lock in 2 strips at once**

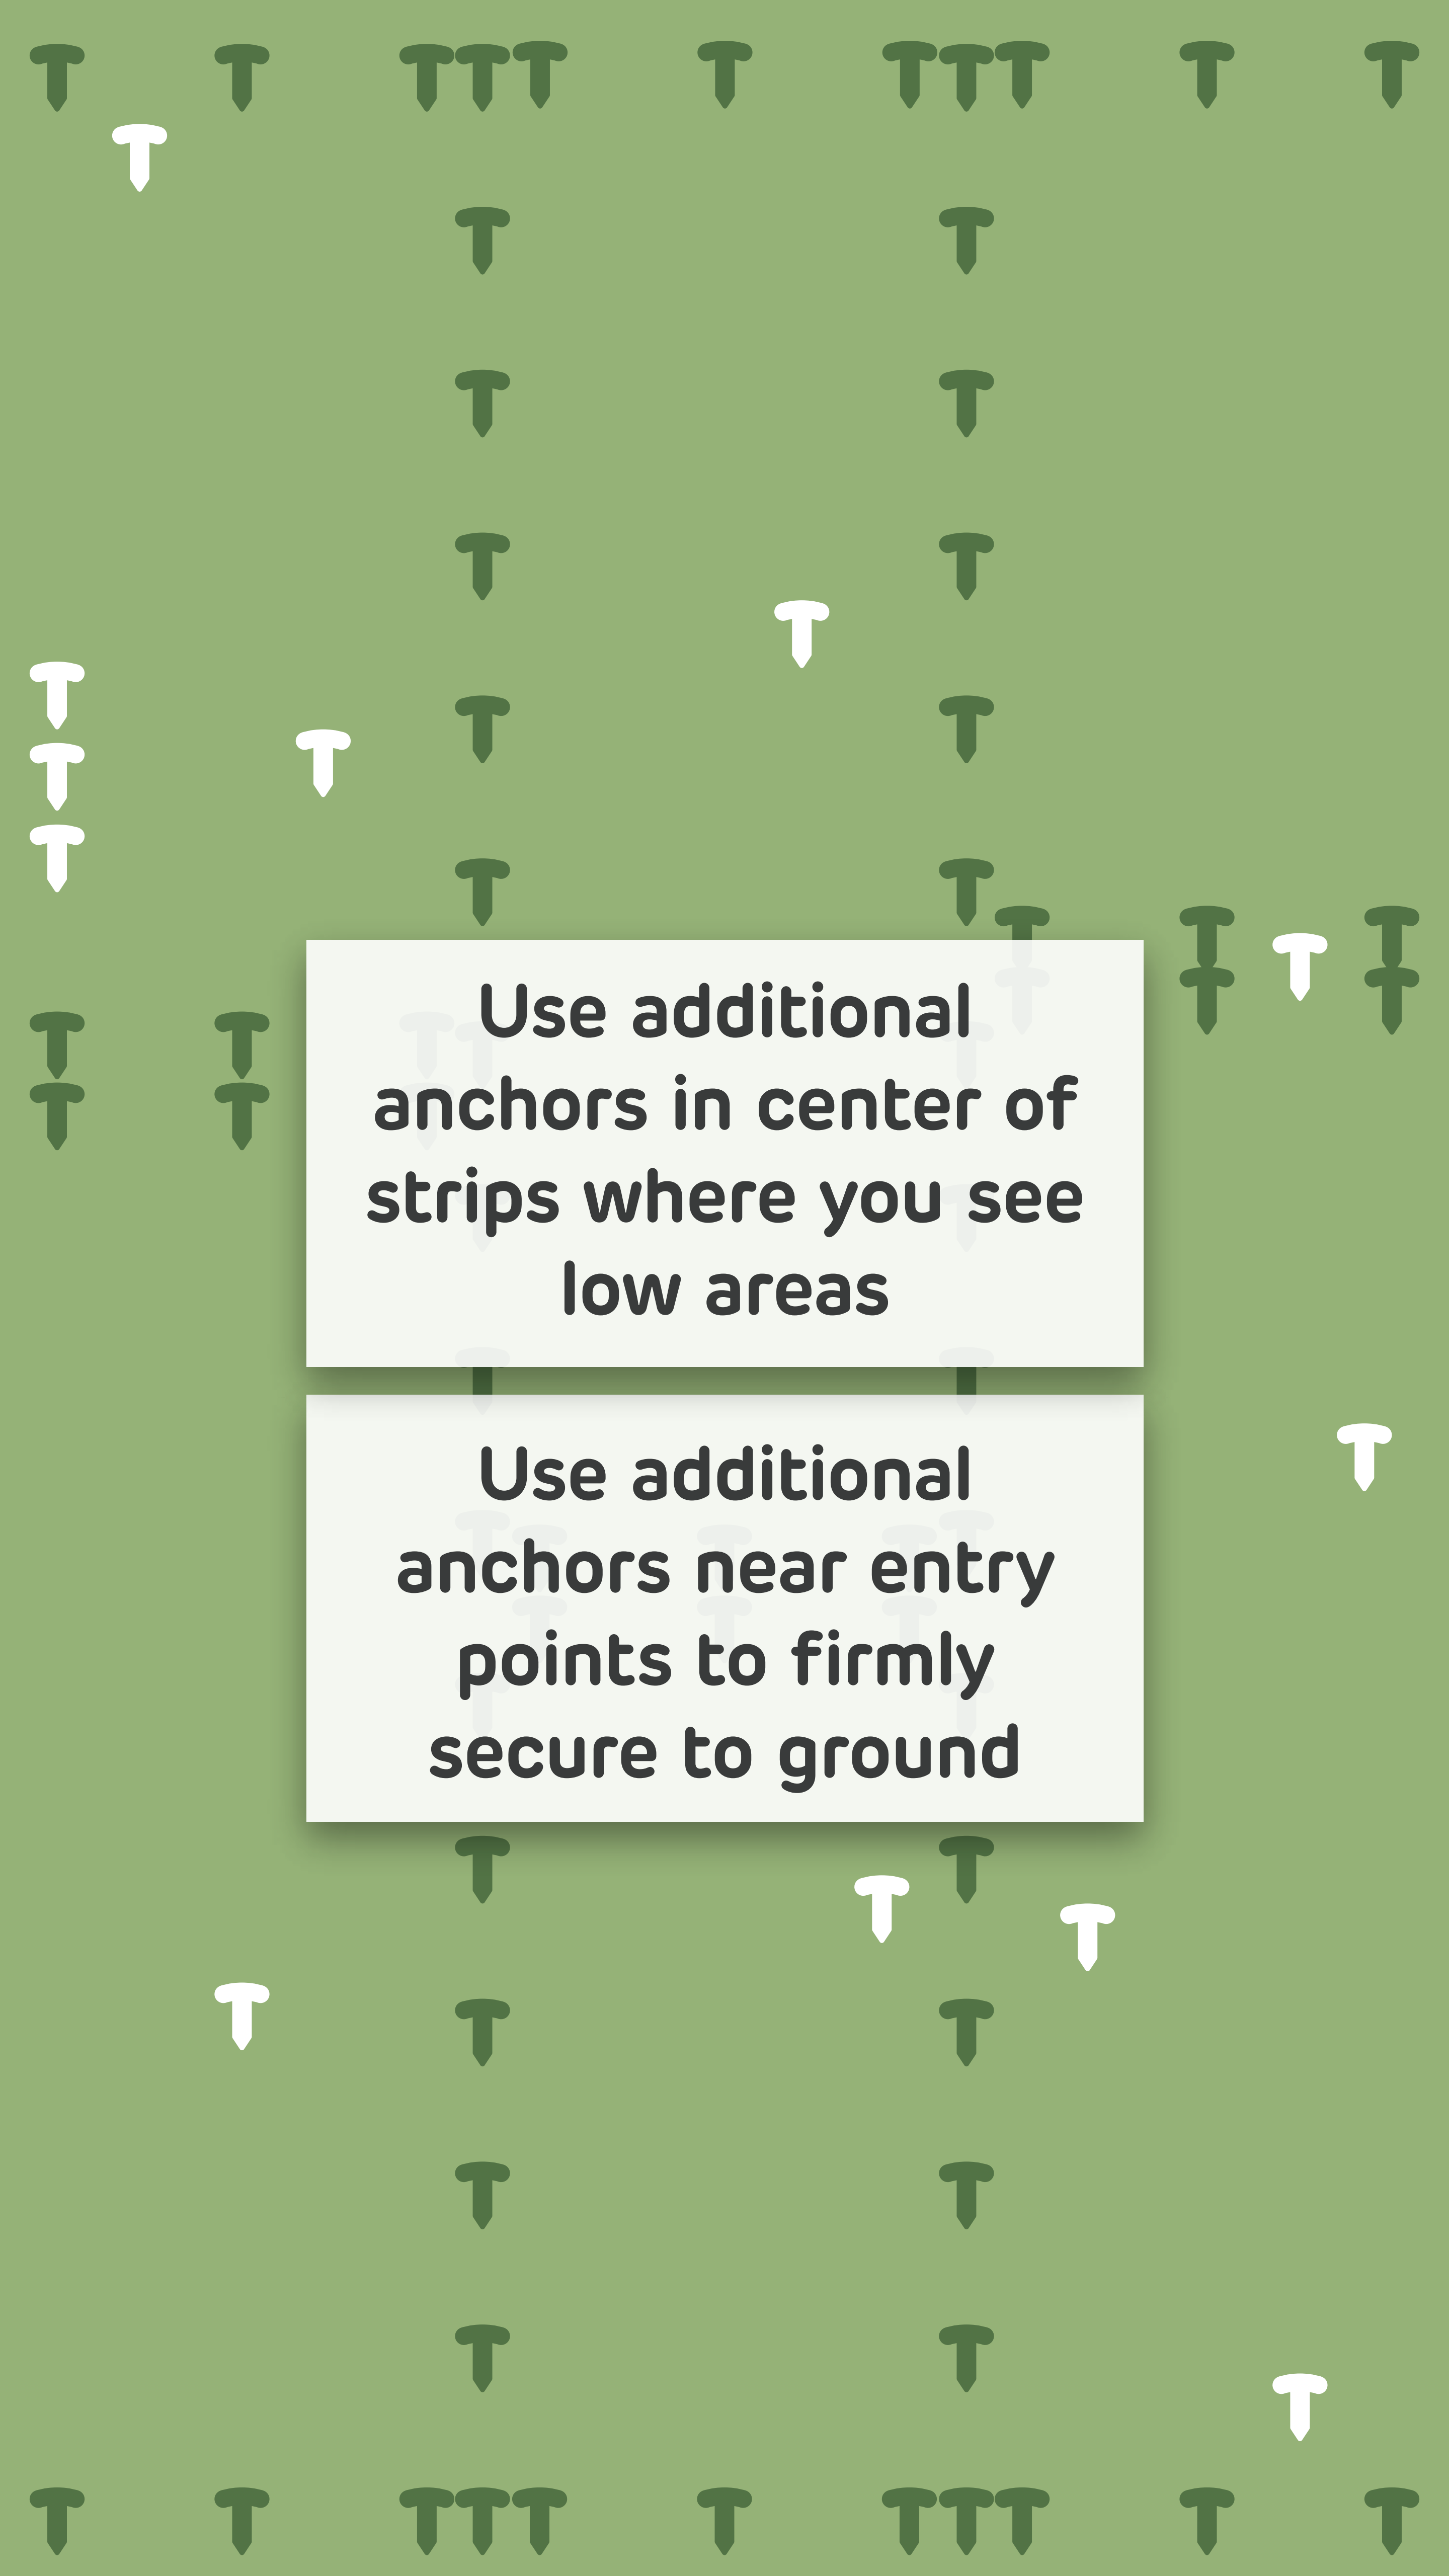

**Continue across yard**

**Anchoring as you  
create seams**

Use additional  
anchors in center of  
strips where you see  
low areas

Use additional  
anchors near entry  
points to firmly  
secure to ground

**Sprinkle sand or fill dirt along any seams that are not laying flat**

**Put additional dirt over exposed seams at entry points to keep strips from rolling up**
